ABOUT

Highly motivated and versatile software developer with a diverse skill set in cross-platform mobile development, web development, and backend technologies. Collaborative team player with a problem-solving mindset, eager to contribute to innovative projects.

SKILLS & EXPERTISE

Full-Stack Web Development

JavaScript AngularJS React React Native NodeJS NextJS ExpressJS PHP
Laravel Symfony WordPress C# (.Net) HTML CSS/SCSS ISML XML

E-commerce and Salesforce

Salesforce B2C Commerce Platform SFRA (Salesforce Reference Architecture)
PrestaShop

Database Management

MySQL MongoDB PostgreSQL MariaDB

Version Control and DevOps

Git GitHub Azure DevOps BitBucket

Documentation and Collaboration Tools

Jira Confluence Slack Trello Microsoft Office 365

WORK HISTORY

Feb - Jul 2023

AIDY Health

Front-end React Native Developer | Geneva, Remote

- Develop cross-platform mobile applications with React Native for iOS and Android, integrating AI features for enhanced functionality and user engagement.
- Design visually appealing interfaces, seamlessly integrating third-party libraries and APIs for an intuitive user experience.
- Employ version control systems like Git and follow best practices to optimize code management and deployment, ensuring smooth AI integration and application performance.

React Native GPT API API Integration JavaScript/TypeScript Azure DevOps

Jan - Nov 2022

Le Creuset

EMEA Salesforce Junior Developer | Barcelona, Catalonia, Spain

- Ensure seamless platform availability and provide on-call support for issue resolution.
- Analyze and align system enhancements with precise business requirements.
- Specialize in developing and enhancing Salesforce B2C and B2B commerce cloud applications.
- Collaborate cross-functionally, transforming business needs into precise technical solutions.

Jul - Oct 2021

five is blue

Junior Full Stack Developer | Barcelona, Catalonia, Spain

- Cooperate seamlessly within a multidisciplinary team of designers, project managers, and engineers to deliver top-tier digital solutions.
- Transformed preliminary UI/UX sketches into modern, interactive, and user-friendly web applications, adhering to web standards.
- Arrange the development of high-quality, enterprise-grade solutions by liaising with various teams, ensuring a holistic approach to solution delivery.
- Efficiently managed application data by integrating and interacting with databases, ensuring optimal storage and retrieval.

JavaScript AngularJs HTML SCSS AJAX MySQL PHP PrestaShop Veeva

Mar - Jun 2021

Tridenia S.L

Junior Full Stack Developer | Barcelona, Catalonia, Spain

- Proficient in seamlessly integrating web services, enhancing application performance and communication within complex projects.
- Proposed and executed enhancements in web service integration, optimizing data communication and fostering real-time updates for a more interactive application.
- Recognized for exceptional problem-solving skills, ensuring efficient troubleshooting and timely project delivery.
- Played a vital role in achieving project success by employing collaborative approaches and leveraging expertise in data transfer and structure, resulting in the delivery of high-quality applications.

EDUCATION

Jun 2020 - Feb 2021

Assembler Insitute Of Software Engineering

Master In Software Development | Barcelona, Catalonia, Spain

Completed an intensive Master's program in Software Engineering, gaining in-depth knowledge of various aspects of software development, including both theoretical and practical applications.

- **Relevant Coursework:**

- Software Development Lifecycle (**SDLC**)
- Object-Oriented Programming (**OOP**) and Design Patterns
- Database Management Systems (**DBMS**) and **SQL**
- Web and Mobile Application Development using React, Angular, and React Native
- **Agile** and **Scrum** Methodologies for **Software Development**
- Cloud Computing and Deployment.
- Software Testing and Quality Assurance

- **Achievements and Projects:**

- Led a team in developing a robust web application using the **MERN** stack (**MongoDB, Express.js, React, Node.js**) to streamline business processes, resulting in a 30% increase in operational efficiency.
- Conducted research on optimizing database performance in large-scale applications.

- **Technologies and Skills:**

- Proficient in languages such as **JavaScript, Node, TypeScript, and PHP**
- Experienced in full-stack development using **MERN, MEAN, and AngularJS** stack technologies
- Solid understanding of **RESTful API** design and implementation
- Familiar with version control systems, particularly **Git**
- Strong knowledge of software design principles, data structures, and algorithms
- Ability to work effectively in **Agile** team environments using **Scrum** methodologies
- Excellent problem solving skills and a strong aptitude for learning new technologies and concepts
